Mission Statement

1. To actively work year-round to elect **qualified** Republican candidates to local and state offices.
2. To actively work year-round to effect **policy changes** that are in keeping with our belief system as it relates to government.

Qualified Republican candidates means candidates who work to uphold and protect the US and NC Constitutions. It means those who exhibit honesty and integrity and who have the strength of character to speak out against behavior and practices which are harmful to the structure of our country as it was intended by our Founding Fathers.

Policy changes which are in keeping with our belief system as it relates to government means strict adherence to the US and NC Constitutions. This means lower taxes, smaller government and less government interference. It further means strict accountability of all those holding public office and/or receiving public funds.
